

INLINE WASHER & PRETREATMENT SYSTEM

Perfect for today's aggressive and robust chemicals, SprayLean™ offers a small footprint and a modular, interchangeable pod design that's easily expandable for any application. Its full access side panels and quick disconnect nozzles provide for easy installation and very low maintenance.

MODULAR

Interchangeable pod design that can expand for any application.

EFFICIENT

Removable shrouds allow easy access to tanks.

FAST

Arrives fully equipped and ready to go for fast installation.
