

INDUSTRIAL EVAPORATOR SYSTEM

PEM's industrial evaporator is designed for any OEM, fabricator or job shop that has the need for efficient disposal of non-volatile aqueous cleaning process water, metal cleaning fluids and other manufacturing process disposal needs.

PRODUCTION INFORMATION & SPECIFICATIONS

- Quality components
- Beta pump for pH adjust or de-foamer options
- Easy installation
- Insulated tank
- Access cover for easy access
- 4" drain port

Evaporation Rate	Up to 25 gallons per hour
Temperature Limit	Up to 225F
Tank Capacity	150 gallons
Tank Construction	Stainless steel
Safety Controls	Safety shut down, low and high level sensors with high temp override
Auto Fill	Auto re-fill solenoid and level sensors
Oil Skimmer	Stainless steel belt type for free floating oils
Burner	400,000BTU, liquid propane or natural gas
Electrical	115V single phase, 20 amp
Venting	8" x 36" vent pipe with draft inducer
Dimensions	84"L x 38"W x 68"H
Weight	1,370 lbs.
